
**AT BELGICAST, WE CONTINUE WORKING TO ENSURE THE SUPPLY OF DRINKING WATER
ACCORDING TO ROYAL DECREE-LAW 10/2020 OF MARCH 29TH**

In these difficult and changing times, at BELGICAST we continue working as part of the support chain for drinking water supply and wastewater sanitation services, ensuring the supply chain of Water Authorities, as well as of valves distributors, considered essential service companies.

Due to the fact of the pandemic crisis declared in Spain related to COVID-19, Belgicast keeps on implementing all the recommendations and protocols issued by health authorities to guarantee the safety of our employees, customers and suppliers.

BELGICAST customer service team is prepared to remotely attend to daily activities. Moreover, Belgicast maintains a permanent crisis management committee in-site, coordinating our operations centres. For any questions or further information, please feel free to contact us at **+34 94 488 91 00** or send us an email to belgicast@talis-group.com. Due to the special conditions we are all facing, we inform you that while this situation remains, **our opening hours will be from 8 a.m. to 3 p.m.**

BELGICAST team is fully committed to maintain service levels and arrange the necessary stock, to be able to serve as usual to our current commitments and those that may arise, since both our production plants and our logistics centres are operational. Although due to the exceptional nature of the situation, some services may be affected.

We will keep you informed, always from the responsibility of ensuring the well-being of our Stakeholders.

Best regards,

Aitor Bernardo
MD Operations Belgicast

Joan Galtes
MD Sales Talis S.E.
