

## PRESS RELEASE

**Mungia, Spain - 12<sup>th</sup> January 2021**, TALIS, the leading global provider of premium valves, hydrants and other solutions for water flow control, today announced project awards totalling more than 7 million Euros, to supply equipment to multiple desalination facilities in the Kingdom of Saudi Arabia.

TALIS will supply several BELGICAST Centric Butterfly Valves and BELGICAST Dual Plate Check Valves to these facilities. Equipment for both low and high pressure, and with special materials, such as super duplex ATSM A995 Gr 5A. Oswaldo Robredo -Desalination Key Account Manager- : "This is the result of hard work carried out at BELGICAST for more than 20 years providing solutions for desalination".

The high reliability of TALIS products (ERHARD and BELGICAST range) and its standards reduces the risks associated with large scale installations and thus ensures a successful and economic on-time completion of the project. TALIS estimates these facilities will produce up to 1.6 million cubic meters of water per day (m3/day). This strengthens TALIS position in Saudi Arabia, and consolidates TALIS as a quality manufacturer worldwide. "We actually have the most significant backlog from project activity in a quarter in the company's history. This is a major milestone resulting from our experience and great success in fulfilling previous large projects. I would like to add that our latest state-of-the art CBV GREATGOLD design makes a difference, but also our project management investments to serve our customers are a major differentiation. Our products and our service are ready to comply with the most demanding standards" Joan Galtés - TALIS Commercial MD

### About TALIS Group

TALIS is a leading global provider of premium valves, hydrants and other solutions for water flow control.

With a varied range of products, we offer comprehensive solutions for the entire water cycle, from hydrants to butterfly valves, from knife-gate valves to needle valves. Our experience, innovative technology, global expertise and individual consultation process, form the basis for developing sustainable solutions for the efficient handling of the vital resource "water".

With over nine strong brands and 28 entities in Germany, France, Spain, Portugal, Italy, Great Britain, the Netherlands, Russia, Poland, Israel, China, the Middle East, Mexico, India and Singapore, TALIS is the largest supplier of valve technology and first choice when it comes to water valves and services for the whole water cycle.
